MASGAMES
Outdoor games

AT MASGAMES WE ARE MANUFACTURERS AND HAVE OUR OWN BRAND OF OUTDOOR GAMES. OUR PRODUCTS OFFER AN EXCELLENT PRICE-QUALITY RATIO.

In **MASGAMES** We manufacture outdoor games and wooden street furniture for the Horeca channel (Hotels, Restaurants, Communities...) or for demanding individuals.

Wood is the main raw material in most of our items. **Playgrounds, swings, wooden playhouses, rocking chairs, trampolines and garden furniture** are some of our proposals.

Our products are "Made in Barcelona", locally produced, nice design and with the European standards of quality, safety and sustainability.

Masgames Active Toys, SL **Born 20 years ago**. Our CEO, during a stay in the United Kingdom, realized the difficulty in acquiring garden games in our country despite the good climate we had. We are currently a team of professionals converted **intomanufacturers of our own games and outdoor furniture**, with our own engineering department and capable of designing strong and beautiful outdoor products.

Our team works in **the design and manufacture of both public use products and household items home use**. We are also open to the **possibility of working on custom project designs specific**.

An example of this is our **giant wooden letters**, large-format structures that at the same time They can house games such as slides or climbing walls, among other alternatives.

We seek the satisfaction of our clients also in the medium/long term. For our team to provide a good human treatment and paying attention to details are very important aspects when it comes to providing good service. Toy store chains, garden centers, online platforms that are leaders in their sector, shopping centers and convenience stores.

DIY are just some of our clients. Do you want to be a distributor of Masgames products?

WE ARE HERE TO HELP YOU!

To offer a good service to our customers, our working methodology:

- Manufacture our own products
 - Have stock
 - Give good advice
 - Act quickly
- Work effectively, honestly and professionally

OUR WOOD

The wood used in MASGAMES swings and playgrounds has been selected from the best fir and pine trees. All the wood used has been treated with level IV autoclave impregnation to prevent wood rot, deterioration due to humidity and possible insect infestations, with a 10-year guarantee. This method used is non-toxic and free of arsenic and has a darker wood colour that makes it more beautiful and greater quality and durability. These are common procedures for the wood used in swings and playgrounds.

Wood is a living material that expands and contracts depending on temperature and humidity conditions, and throughout the year the cracks can be more or less large and long. They will be at their maximum in summer and in winter, if the climate is humid, they will be reduced. The cracks can have a width of up to 3% of the trunk's circumference and can reach the centre of the wood. These cracks have been taken into account in the resistance calculations of each component.

In round or square wooden swings, a certain amount of clearance can be seen between the metal corners and the wood. This clearance is necessary so that the wood can expand and it is very important that it is not blocked, and it is also very important that the cracks are not covered.

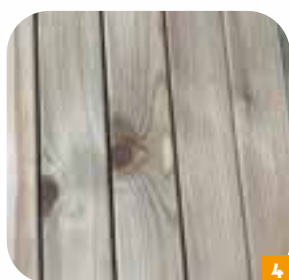

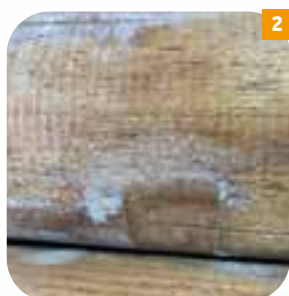

Watch the VIDEO!
For more information
on our wood.

Differences between round or square wood:

- Round wood has been selected from young trees. It is so resistant and less expensive than the wood coming from old trees. This wood comes from renewable forests, but it has more cracks.
- The use of square wood reduces the appearance of cracks on the surface. This is because the wood is cut mainly from the edges towards its centre. In addition, the wood has been dried naturally before being cut in order to avoid possible shrinkage and cracks.
- The strength and solidity is approximately the same in both forms

The wood conditions that are completely normal and do not modify the functionality of the product or its quality are the following:

1. CRACKS IN THE WOOD*

Expansion and/or contraction of wood. These are completely normal and necessary.

2. WHITE STAINS ON WOOD*

Surface mold from storage. Can be cleaned with a dry cloth and exposure to the elements.

3. KNOTS IN THE WOOD*

They are a peculiarity of wood, completely normal.

4. DIFFERENCES IN COLOR AND GREENISH SURFACE SPOTS*

They are due to autoclave treatment, but with exposure to the elements the color will become more uniform.

*All these peculiarities in the wood are normal and therefore cannot give rise to claims.

Review and maintenance:

- It is advisable to regularly review the games, in order to detect possible damage from rot or rust, especially the fixing components of the structures and readjust them if necessary.
- We recommend that you remove all accessories during the winter, i.e. seats, rings, ropes, etc. and store them in a sheltered place.
- The swings can tilt due to their continuous swaying, which is why it is recommended to check the anchors periodically.

METAL SWINGS

Metal garden swings, easy to assemble and ready for the outdoors. The swing frame is made of galvanised metal and combines two shades of green to match the seats.

Individual swing **BABOL**

150 cm (length) x 77.5 cm (width) x 180 cm (height)

The maximum weight of the seat user individual of the swing are **110 kg**

AIKO

The AIKO swing is designed for children from 3 to 9 years old and for small spaces.

It is made of pine wood carved in a very resistant square shape and treated for the outdoors.

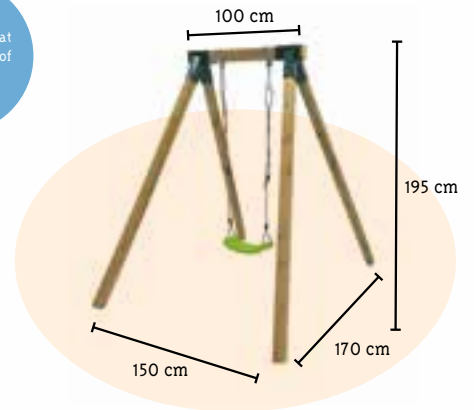

- Measurements: 1.70 m [length] x 1.50 m [width] x 1.95 m [height]
- The length of the crossbar is 100 cm.
- Posts: 68x68 mm thick
- Crossbar: 88x88 mm thick
- Includes 1 swing with individual plastic seat and ropes.
- Also includes metal connecting pieces, anchors and screws.

Approved for the garden of a private home.

Ref: MA700054

The maximum weight of the seat user individual of the swing are **70 kg**

Aiko with baby seat

Includes 2 seats:

- A flat seat
- A baby seat

Ref: MA700055

XYLO

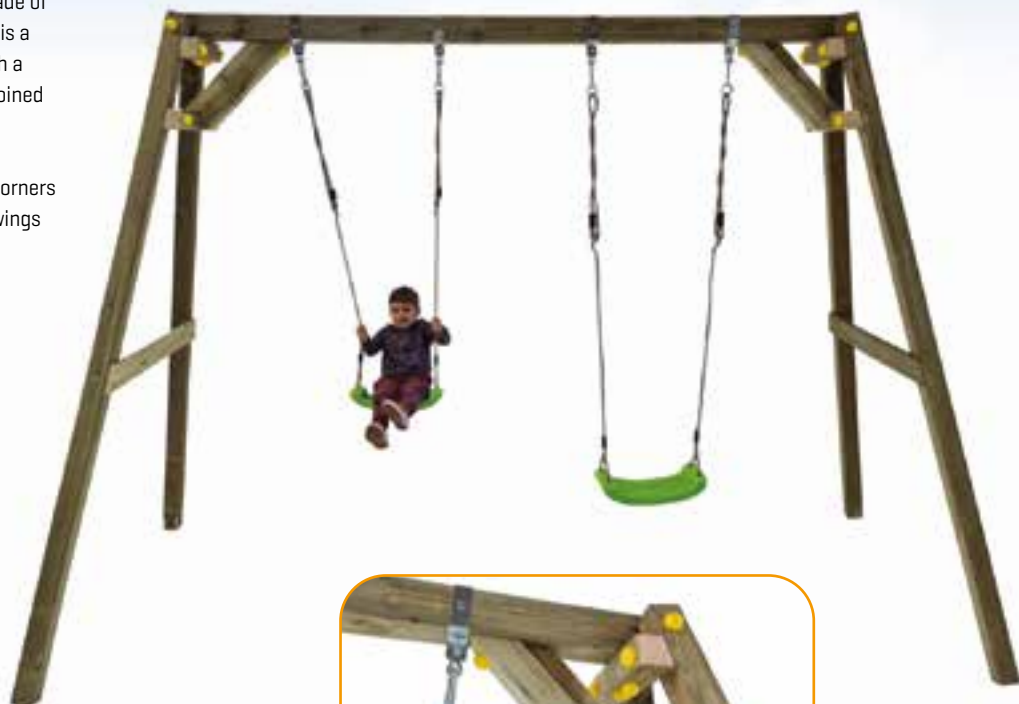

The MASGAMES XYLO wooden swing is made of square-cut Nordic wood. The XYLO swing is a structure built without metal corners, with a system of wood and screws the legs are joined to the crossbar making a stable, strong structure. The assembly takes more time compared to the swings that come with corners but thanks to not having the slack that swings with corners have, the swing has less rocking. Square-cut wood has fewer cracks than round wood

This swing structure **includes:**

- 2 flat plastic seats and ropes
- Anchors for sand or grass floors and screws.

The dimensions of the XYLO swing are as follows:

265 cm (length) x 150 cm (width) x 220 cm (height).

The maximum weight of the seat user individual of the swing are **70 kg**

250 x 27 x 18 cm

50 x 30 x 40 cm

WOODEN PLAYGROUNDS

NEW 2025

Children's playground **TIBET**

TIBET playground is a fun and adventure centre perfect for ages 3 and up to 9 or even 10.

This playground offers three very different play areas. On the one hand, there is a two-seat swing that allows for endless combinations: baby seats, nest seats or any acrobatic accessory. Next to the swing, the inclined climbing wall is the access to the platform raised to 90 cm. But as the TIBET playground can only be called that if it is full of adventure, the opposite side of the climbing wall is a wooden framework to test the little adventurers.

And from its platform, the 175 cm long slide ramp will return them to the ground. With a design that will blend perfectly into your garden and suitable for compact and medium-sized spaces, it is the perfect choice for great adventurers who dream of reaching the highest peaks ever imagined.

Also option without slide.

FACE TO FACE

Children's playground **DOLOMITES** Challenger

3-12
years

The Dolomites is a Children's playground with a platform that can be climbed on from three sides: on one side there is a climbing wall with climbing stones, on the opposite side there is a climbing net and on the side of the structure there is a wooden staircase with the rungs specially placed in an irregular manner. It also includes a swing frame with two seats. Approved for private use

Includes:

- Dolomites structure with platform
- Swing structure
- Two plastic seats with synthetic ropes
- Anchors and hardware
- Swing crossbar measurement: 2.40 mts.
- Measurements: 326 cm long x 257 cm wide x 210 cm high
- Platform height: 133 cm
- Total height: 2.18 mts.

Ref: MA800700

Children's playground **SIBERIA** ADVENTURE

The Siberia Adventure park is similar to the previous Dolomitas Challenger, although the rope network has been replaced by wooden crossbars inclined at different positions. In addition, the upper platform is flat and has protection on both sides by a wooden wall.

The Siberia Adventure park is available in L or XL versions for more or less doses of adventure and is also manufactured without the two legs so it can be attached to any Masgames wooden tower.

years

Children's playground **KILAUEA**

Playground designed for small children between 1-3 years old. It is a small-sized playground ideal for small spaces.

Children will enjoy a playground with an elevated playhouse and a swing with a baby seat. They can climb up the easily accessible stairs and slide down the slide ramp.

Ref: MA700001

Children's playground

LIGNUM

3-12
years

Wooden playground with double swing and platform with slide. The MASGAMES LIGNUM playground is made up of a XYLO double swing and a MOLA platform with slide. A strong, high and safe playground with the best quality-price ratio.

The MASGAMES LIGNUM playground is made of square wood treated for outdoor use.

Unlike other playgrounds or swings, this structure does not need metal corners to hold the crossbar with the legs.

Thanks to an innovative design, the structure is much more secure and with less movement than parks that have metal corners.

The assembly, on the other hand, takes a little longer, although it is still easy for families to set up the park without problems

The LIGNUM playground structure includes:

- 2 flat plastic seats and ropes
- Anchors for soil, sand or grass and screws
- 230cm long slide ramp

The dimensions of the MASGAMES LIGNUM playground are as follows:

Measurements: 335 cm [length] x 285 cm [width to the end of the slide] x 220 cm [height]

The square wooden posts measure 68x68 mm at the legs and 88x88 mm at the top post. The height of the first tier of the platform is 1.20 m. The slide ramp is 2.32 m long. The slide ramp is made of HDPE which is highly resistant to corrosion and therefore suitable for outdoor use. In summer, a hose can be connected to the ramp so that water can flow down the ramp. This is a combination that offers many possibilities for fun for children.

The maximum user weight of the single swing seat is 70 kg.

Ref: MA700066

Lignum

With baby seat

Ref: MA700067

Children's playground MAUNA LOA

SQUARE WOOD

3-12
years

The MAUNA LOA Children's playground from SQUARE WOOD has a platform with a slide that can be climbed up using a rear ladder and then glided down the slide ramp. It also includes a double swing with two seats.

It is made from wood treated for outdoor use, cut in a square shape, which makes it stronger and more resistant and has fewer cracks than round wood.

The slide has the option of attaching a water hose.

The Mauna Loa Children's playground Includes:

- Double swing structure.
- Two plastic seats with synthetic ropes.
- Wooden platform with ladder.
- 2.32 m slide ramp.
- Set of corners, anchors and screws.

Ref: MA700080

Dimensions: 2650 mm (length) x 3250 mm (width to the end of the slide) x 2300 mm (height).

- The legs are 68x68 mm and the upper crossbar is 88x88 mm.
- The height of the first floor of the platform is 1.20 m.
- The slide ramp is 2.32 m long.

The slide ramp is made of HDPE, which is highly resistant to corrosion and therefore suitable for outdoor use. In summer, a hose can be connected to this ramp so that water can flow down the ramp. This combination therefore offers many possibilities for fun for children.

Children's playground

LOOKOUT

The Lookout playground is a multi-purpose playground. It consists of a playhouse and a tower with a slide next to it. The playhouse has a window on one side, a half-height door on the opposite side, a railing on the side and finally, on the side that is connected to the tower, it is open so that the tower can be accessed.

The Lookout Park is available in two versions:

- Lookout S Park has a platform with a slide at a height of 60 cm. The tower has a height of 2.49 m
- The Lookout M playground has a platform with a slide at a height of 90 cm. The tower has a height of 2.79 m

The house is the same in both versions and has dimensions of 161.6 cm [length] x 130 cm [width] x 155 cm [height].

The dimensions of Lookout Park are:

203.8cm [L] x 161.6cm [W] x 279cm [H]

The height of the slide platform is 90 cm

The slide ramp is 144 cm long

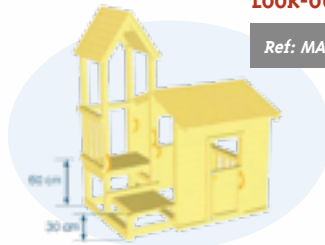

You must leave 2 meters around the safety zone.

TAGA

3-12
years

TAGA playground is made of pine wood treated for outdoor use and is very robust and durable. It has an elevated playhouse that children can access via a ladder and a side balcony where they can slide down the slide.

TAGA 1

This playground is available in 2 versions:

MA700300

> TAGA playground WITHOUT climbing wall.

MA700360

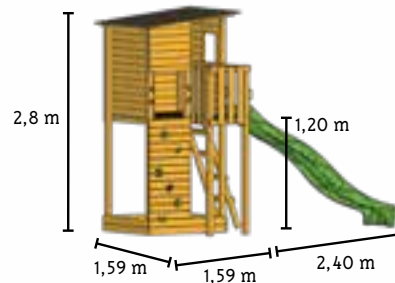

> TAGA playground with climbing wall

One of the advantages of this park is that depending on the area where the slide has to be installed, it can be placed at the front or on the side of the park.

Measurements with the slide arranged at the front: 1.59 m (width) x 2.8 m (height) x 3.59 m (length).

Measurements with the slide arranged sideways: 1.59 m (width) x 2.8 m (height) x 4 m (length).

This playground is intended for private use only.

NAUTILUS WITH CLIMBING WALL

The NAUTILUS playground is a boat-shaped playground where children can let their imagination run wild, turning into little sailors or terrifying pirates for a moment. Kids will love it!

The tower can be accessed via the wooden stairs and once on the platform, children can play with the rudder, imagining that they are driving a boat, or slide down the slide ramp. At the bottom there is a sandpit in the shape of a boat with a bench to sit on.

This version includes a climbing wall and children can climb the tower on this wall. However, this model does not allow for the inclusion of a swing or the @challenger.

This spectacular structure includes:

- 1 raised house with a sloping roof
- 1 sandbox (without sand) in the shape of a boat
- 1 wooden ladder
- 1 climbing wall with climbing stones
- 1 slide ramp with water connection in lime green
- 1 boat wheel
- 1 set of anchors

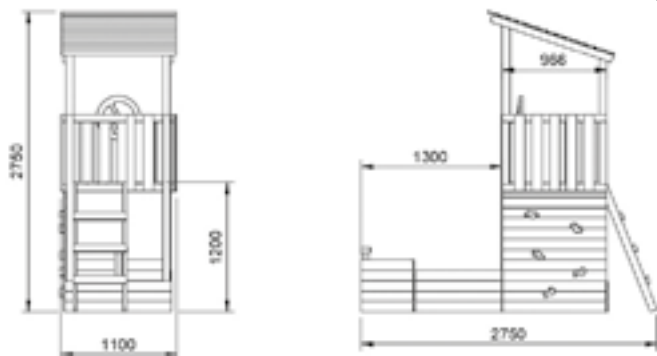

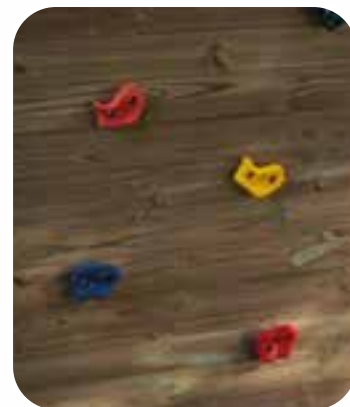

Tower dimensions: 2.75 m (height) x 2.70 m (width) with the slide ramp x 2.75 m (length)

The height of the first floor of the little house is 1.20 m.

Approved for private use.

Children's playground **SYRACUSE**

NEW 2025

The MASGAMES SYRACUSE XL playground is a versatile and durable playground, ideal for private gardens with enough space to install this large outdoor play centre.

It includes a wooden tower with a little house raised to a height of 142.5 cm, an L-shaped balcony with a railing, a slide ramp and a climbing wall, as well as numerous play areas at different heights which, in turn, provide access to the top. Made from level IV autoclave-treated wood, it comes from sustainable forests in northern Europe.

Ref. MA700440

Main features:

- At the top you will find a Lollipop House XL with a roof, flower pot and windowsill. The house alone is over 160 cm high.
- HDPE slide ramp almost 3 metres long with the possibility of connecting a water hose to it and turning it into a water slide: a “freaky thing” for the summer!
- Climbing wall with coloured holds to access the 120cm high platform.
- Small additional platform at 60 cm height.
- Large sandbox at the base for games and greater stability.
- Ladder with handrail for safe access.

Park measurements**[without swings or Adventure module]:**

- Dimensions: 486.5 x 273 x 304 cm.
- Safety area: 685 x 520 cm.
- Maximum platform height: 142.5 cm

MULTIPLY THE FUN BY 10X!:

Add a structure with one or two swings or the Adventure module, which, in addition to a double swing, includes a climbing wall and zig-zag climbing frame.

“A complete play space to encourage fun, activity and imagination outdoors.”

Children's playground

PALAZZO

3-12
years

Spectacular tower with several integrated elements, it is so big that children will never get bored.

It has a large platform with a balcony on one side and is connected to a little house for hiding.

Below it houses a huge sandbox and a resting area with a bench that is also a trunk for storing toys.

The tower can be accessed via a climbing wall, a fixed ladder or an inclined ladder.

Approved for private use.

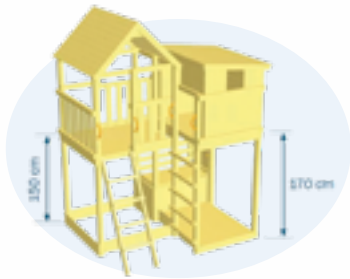

Includes:

- 1 Tower with raised roof
- 1 Elevated house with roof, doors and windows
- 3-meter slide ramp.
- 1 wooden inclined ladder
- 1 wooden vertical ladder
- 1 wooden platform with box
- 1 sandbox (without sand)
- Anchors and screws

PALAZZO XL

Ref: MA802701

- The Palazzo wooden tower has the following dimensions: 4.53 m (length) x 2.47 m (width) x 3.38 m (height)
- The dimensions of the cabin are: 143 cm (length) x 124 cm (width) x 100 cm (lowest height)
- The height of the slide platform is 1.50 m
- The height of the playhouse platform is 1.70 m
- The slide ramp is 3 m long
- You must leave 2 meters around the safety zone.

Children's playground SUPERPOP

This spectacular playground is the union of two Lollipop L or XL parks joined by a Madison bridge, so that they are opposite each other.

This is a massive structure, particularly stable, strong, durable and with a multitude of play options. It features two Lollipop XL houses and a single, particularly large elevated play area: the two platforms and the walkway at the same level together provide a large play area.

In addition, this park is available in L or XL sizes, with a platform raised to 120 or 150 cm in height. You can choose a combination of two slides or a slide + a climbing net. The playground has two access stairs, two climbing walls to see who can climb the fastest, and two sandpits: one to fill with sand and the other to store the bike or scooter under one of the houses.

Domestic use.

Superpop L

Superpop XL

3-12 years

Children's playground BAIKAL

The BAIKAL playground is the result of combining the Beach Hut XL with Challenger and the Crossfit playpens, linked by the Bridge.

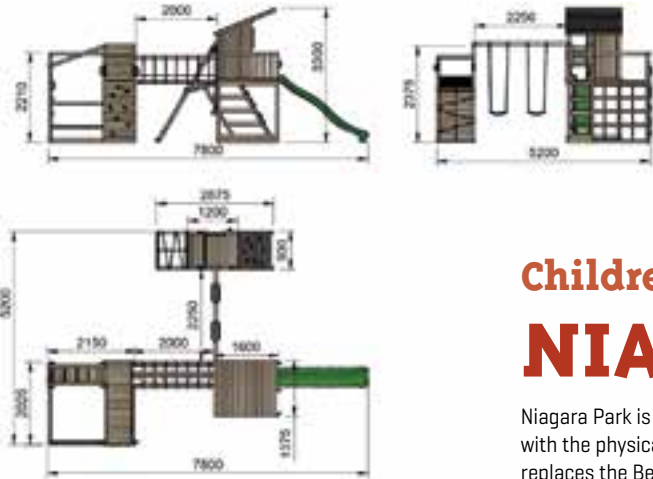

This mega park proposal combines two concepts in one: fun and exercise. The Beach Hut area maximises fun with the playhouse and sandbox below, the balcony for greeting, the long slide ramp and a Challenger structure with double swing, climbing wall and climbing net. On the other hand, at the opposite end of the bridge, there is the Crossfit park, an ideal space to exercise the muscles. It has a brachiation ladder (or monkey ladder), two pull-up bars, a huge rope net for climbing next to a new climbing wall and two large platforms for resting.

An ingenious design that combines fun and exercise like no other park.

BAIKAL

Ref: MA800015

Children's playground NIAGARA

Niagara Park is another great option that also combines the fun of the Tibidabo children's park with the physical exercise offered by the Crossfit park. However, unlike Baikal, Niagara Park replaces the Beach Hut XL tower with Challenger with the Tibidabo XL tower with a double swing and a playhouse, and with a different layout of the space.

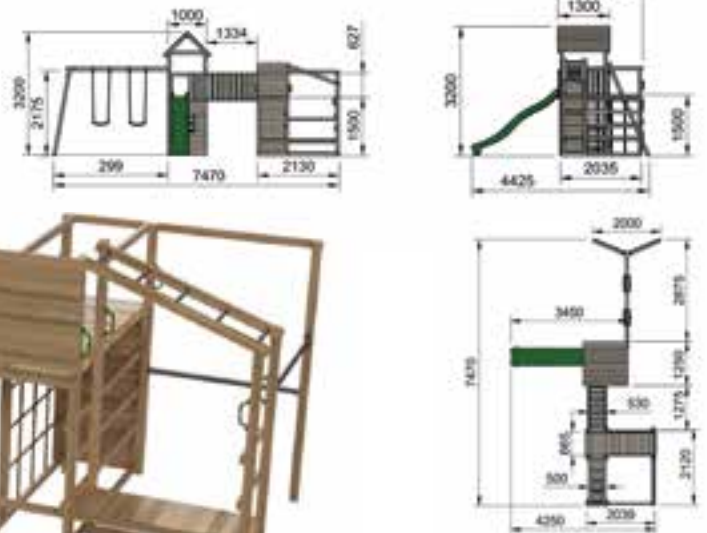

It allows for better use of a long, narrow space and the Tibidabo tower with a playhouse underneath increases

the age range of this park, since the youngest children who do not dare or cannot climb to a height of 150 cm can play inside the playhouse on the "ground floor".

Playhouse

FADA

A Fantasy World for Children!

Transform your garden into a fairy tale with the FADA playhouse! Designed to stimulate imagination and active play, this playhouse offers fun and safety with easy assembly and high-quality materials.

Main Features:

Fairytale design: Open windows, magnetic closing door, fireplace and a charming style.

Easy Assembly: Pre-assembled panels to assemble in minutes with only 6 screws per panel.

Quality and Durability: Made with level IV autoclave-treated wood, ideal for outdoors.

Made here and by us: Like all MASGAMES products, this Fada playhouse is also made of sustainable, durable and safe wood, with spare parts available.

Measures:

Exterior: 145,5 x 169 x 174 cm.

Interiors: 112 x 117 cm.

Give your children a unique space to play, imagine and grow with the FADA playhouse!

Ref: MA800595

Playhouse VISBY

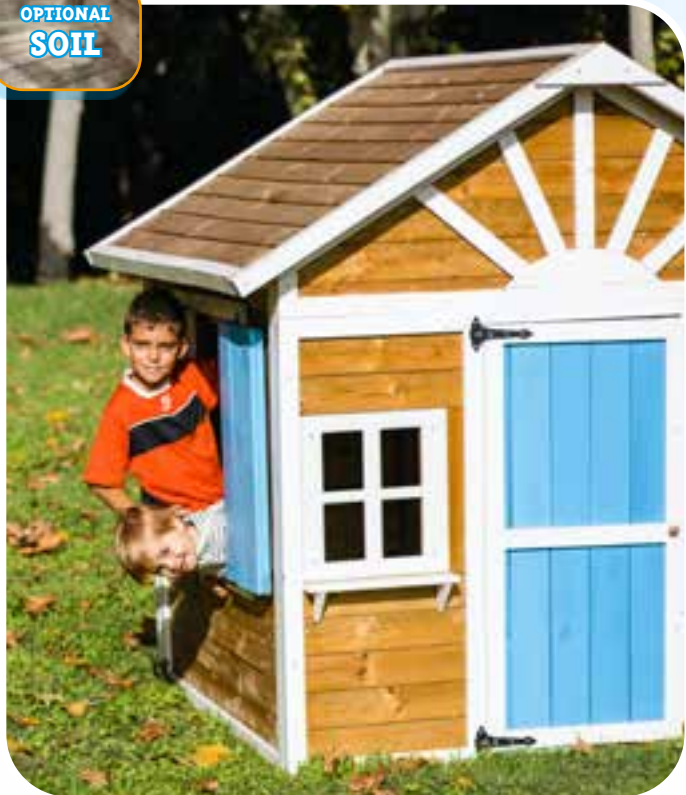

OPTIONAL
SOIL

The MASGAMES VISBY playhouse is a playhouse that kids will love due to its beautiful details, such as fixed and opening windows, generous floor plan dimensions and a high door dominated by two smaller windows, one on each side.

Very easy to assemble as it is delivered pre-assembled in panels and with the option of three different colours!

Also choose whether you want it at ground level or prefer to give it added value by raising it 60 or 90 cm from the ground, along with the corresponding slide!

Ref: MA800583

VISBY (60cm height from the ground)

VISBY (90cm H from the ground)

Cottage ANDREA

The MASGAMES ANDREA cottage has simple, modern lines and is inspired by the "less is more" design.

This little house is made of high quality pine wood. The wood used for its manufacture is from renewable European forests, so it is environmentally friendly and very durable, with a treatment against insect pests and to make it resistant to the outdoors. This treatment is free of arsenic.

The roof is made of a very weather-resistant and waterproof canvas so that water does not filter in, although water can enter through the open walls.

The MASGAMES ANDREA playhouse is available in two versions:

ANDREA WITH FLOOR

Ref: MA800565

ANDREA WITHOUT FLOOR

Ref: MA800560

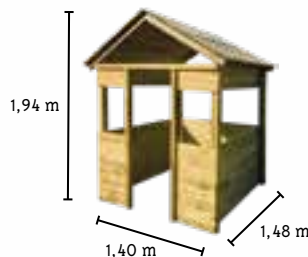

Playhouse STRAWBERRY

A nice, large playhouse that children will enjoy and will be able to play with for many years due to its large size! The Strawberry playhouse includes a door and windows and in its "painted" version it has details painted in red.

This little house is for private use. Made of treated pine wood so that it can be outdoors and protected against pests and rot.

Total dimensions of the house: 194 cm high x 140 cm wide x 148 cm long.

PRODUCTS FOR COMMERCIAL USE

Horeca Channel

THE PRODUCTS OF THE HORECA CHANNEL ARE INTENDED FOR COMPANIES IN THE HOTEL INDUSTRY, SCHOOLS, NEIGHBORHOOD COMMUNITIES, or public spaces under surveillance. This range of games provides a solution for those clients who, by regulation, must install a game approved for public use but do not need the game to be vandal-proof, since it will not be exposed to possible acts of vandalism as can happen in municipal parks, town halls or very large schools.

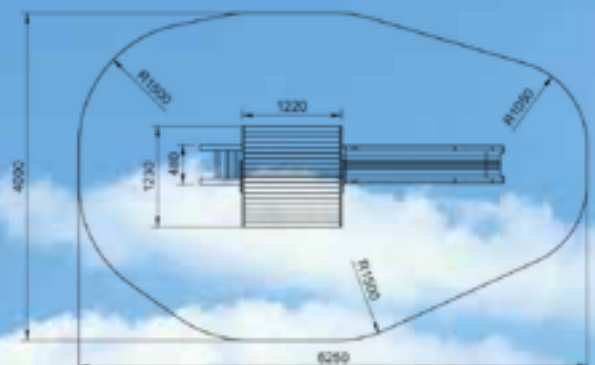

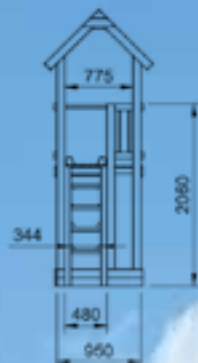

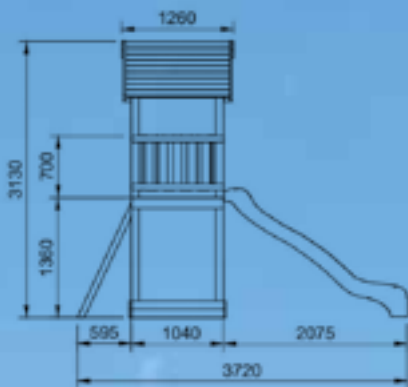

Made of autoclave-treated pine wood, Borealis playground is a children's playground with a slide and complies with the EN1176 regulations for restaurants, rural houses, campsites, etc

BOREALIS Children's playground

With a platform height of 1.50 mts. and very resistant plastic made in painted or unpainted.

Ref: MA500920 BOREALIS OPTIMA (unpainted)

Ref: MA500940 BOREALIS GREEN OPTIMA

PYXIS

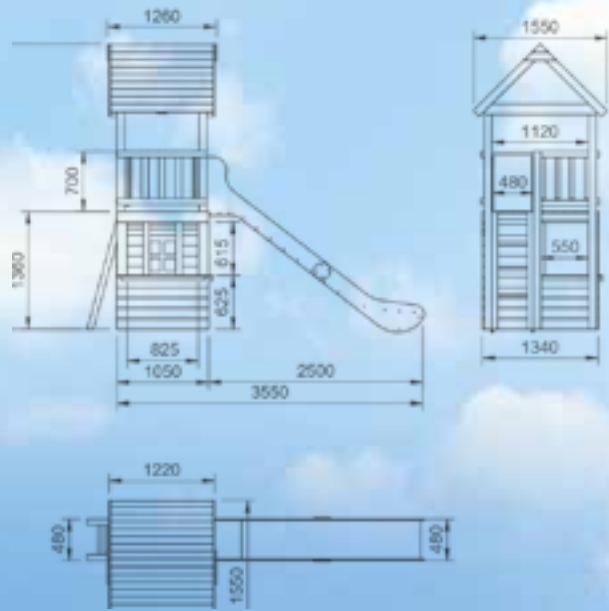

Children's playground

The PYXIS tower is a very robust wooden playground that complies with EN1176 regulations so it can be installed in Hotels, Restaurants, Rural Houses, Campsites, etc. It is made of autoclave IV treated pine wood suitable for outdoor use.

The PYXIS tower has a wider platform and includes a small house at its base with an entrance (without a door), open windows, a counter-top and an interior L-shaped bench so that children can sit inside.

PYXIS OPTIMA

Ref: MA500930

LOLLIPOP

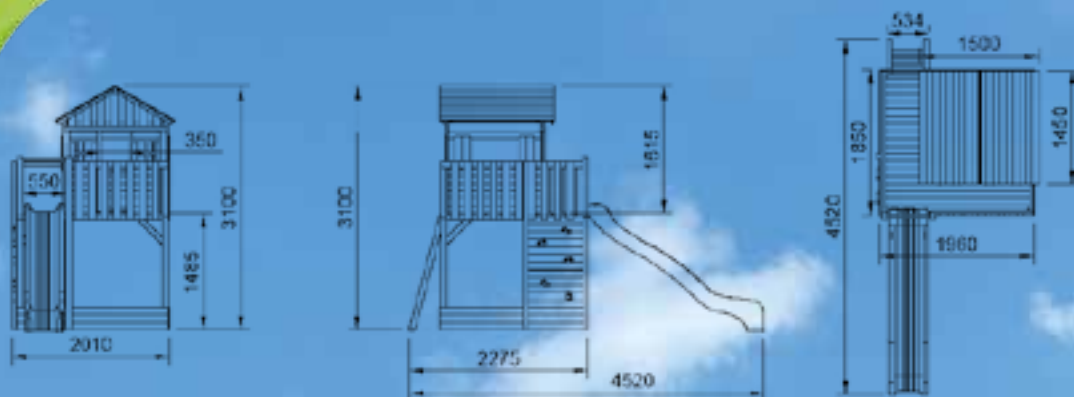

Children's playground

The LOLLIPOP HORECA children's playground is a structure that we have reinforced with thicker wood than that of the playgrounds for domestic use. For example, the railing slats go from 15 mm thick to 21 mm thick or the wood of the pillars go from 68x68 to 88x88 mm. Even the screws of the structure change.

This playground complies with the European regulation for commercial use EN-1176 and is therefore suitable for installation in Hotels, Restaurants, Campsites, Schools and for demanding clients.

The LOLLIPOP HORECA children's playground combines the Lollipop XL Horeca playhouse with a spectacular elevated structure that includes the playhouse with fixed windows, stairs, balcony with railing, climbing wall and sandbox in the inner part [without sand].

Ref: MA500975

AURORA BOREAL

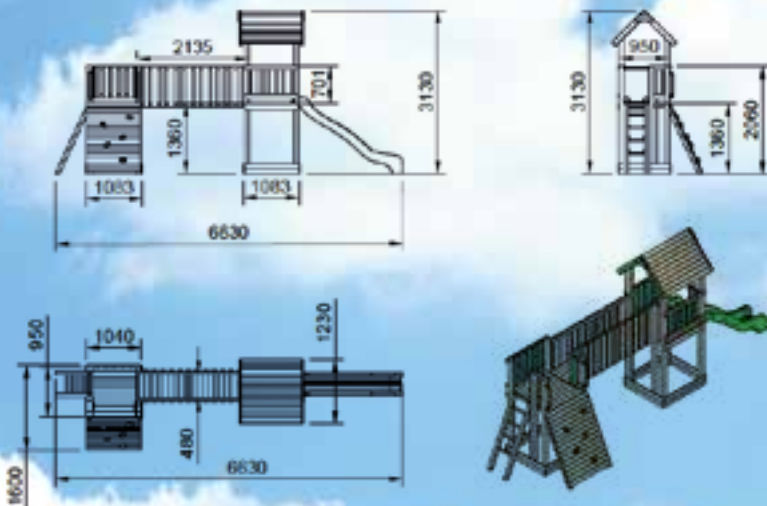

Children's playground

The AURORA BOREAL children's playground consists of a roofed tower with a slide ramp that children can slide down. It also includes a wooden bridge to connect to the other tower and a tower with double access via a climbing ramp or a ladder for easy access. At the base of both towers you can add sand [not included] and have two sandboxes.

Aurora Boreal playground measurements:

- 6.63 m. long x 1.60 m. width x 3.13 m.
- Platform height: 1.36 m.

Ref: MA500985

LITTLE HOUSES DOBLEPOP CON PLATAFORMA

Composition of two Lollipop XL Horeca houses in which you can choose the colour (green, blue, pink or white), both in the same colour or combining colours. These two houses include a triple platform reinforced with pillars that makes it very safe and resistant.

The Doblepop combination is a very robust wooden structure and complies with the EN1176 regulations so that it can be installed in Hotels, Restaurants, Rural Houses, Campsites, Homeowners' Associations, Schools, etc.

Measurements of the Doublepop platform playhouses:

5.07 m. long x 1.83 m. wide x 2.22 m. high. Platform height: 0.60 m.

Ref: MA500990

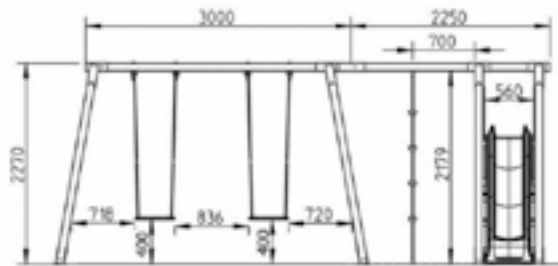

Playpen **PEGASUS**

The PEGASUS playground with the OPTIMA slide ramp is a strong and robust playground, with an excellent quality-price ratio. This playground is approved for commercial use and can be installed in Hotels, Campsites, Restaurants, Schools, Homeowners' Associations and also for individuals looking for quality products.

The OPTIMA slide ramp is made of highdensity polyethylene (HDPE), which makes it very strong and resistant.

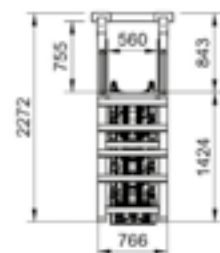

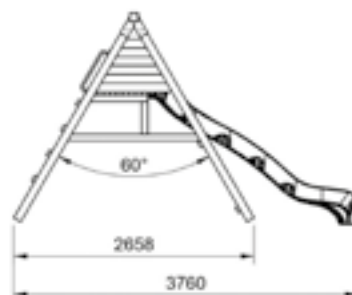

Ref: MA500115

Children's slide **ZENTAURUS**

The ZENTAURUS OPTIMA children's slide is a square wooden structure specially treated for outdoor use. The wood is highly resistant to inclement weather as well as to the continuous use that any commercial game must endure.

Range PINXO TRAIN

Pinxo Train is a combination of a Pinxo Locomotive and two train wagons that can be purchased separately or install as many wagons as you want.

This fun game allows little ones to get on and off the train, go through the tunnel at the front of the locomotive and helps encourage symbolic and team play.

If you choose to add wagons, the game multiplies!

Both the locomotive and the carriages are large, almost two metres long and just under 1 metre wide.

PINXO train
(Locomotive + two wagons)

Ref: MA500803

Locomotive PINXO

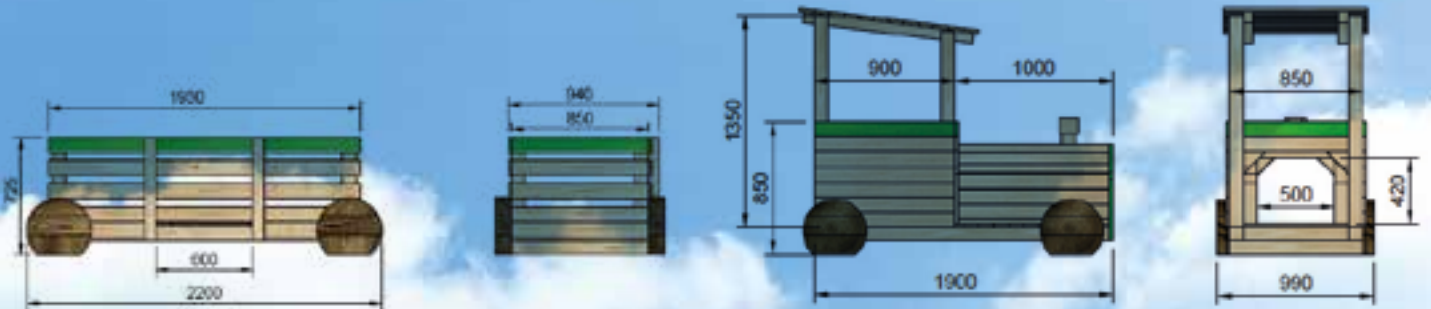

Ref: MA500801

**YOU CAN PASS INSIDE
FROM THE BOILER,
LIKE A TUNNEL!**

Pinxo Train is made with level IV autoclave treated wood and their posts are 88x88 millimetres thick.

They are approved for public use and are an ideal game for a school or tourism and catering companies.

A good alternative to the classic children's playhouse, with hardly any critical fall height, with added value and **very funny!** Gather as many cars as you like and create a play area to encourage group fun.

PINXO wagon

Playhouse LOLLIPOP HORECA

This fun Lollipop playhouse is available in 3 colours: Pink, Green and Blue. The Lollipop playhouse is made from treated pine wood for outdoor use, sourced from renewable forests and cut into a square shape, making it very strong and durable.

The windows are made of high-density polyethylene in white. These panels are fixed and very strong and can be easily cleaned with a cloth. They do not require maintenance and even when exposed to the elements, the material does not degrade or lose color.

Optionally, you can purchase flooring to make the playhouse cleaner and more comfortable inside, so that the children will not be in direct contact with the grass or dirt.

Characteristics:

Recommended for children over 3 years old.

Material: Treated wood for exterior use.

Window: Multiple fixed open windows

Roof: Gabled.

External dimensions (width x depth x height): 1540x1450x1640 mm.

The MASGAMES LOLLIPOP HORECA playhouse has interior dimensions of 133x119 cm

Complies with European safety regulations EN1176

Wooden FENCES

The wood of the fences is treated for outdoor use in a level IV autoclave, which makes it weather-resistant, both in the sun and in the rain, and even in irrigation. The wood has a 10-year guarantee against rot and pests. You can choose the finish of the fences: unpainted or painted in: green, pink, blue or mixed colours.

GEODESIC DOME

The MASGAMES wooden geodesic dome combines design and functionality. Its semi-spherical structure, made up of interconnected triangles, ensures exceptional rigidity and uniform distribution of loads. This makes it a durable and resistant option, perfect for outdoors.

Made from level IV autoclave-treated outdoor wood, the dome is resistant to rain, sun and snow, ensuring a long lifespan. In addition, we use wood from renewable forests in northern Europe, committed to caring for the environment.

Designed without doors to maintain its strength, this dome is ideal as an outdoor climbing wall, outdoor hut or play space. Its design encourages children's creativity and psychomotor development as they explore its fascinating wooden structure.

Easy assembly: The pieces are delivered pre-assembled and are designed to be assembled by two people with basic tools.

Available in two sizes (vary in diameter and height)

Model L:
Diameter: 203 cm
Height: 102 cm

Ref: MA500991

Model XL:
Diameter: 316 cm
Height: 158,5 cm

GIANT LETTERS

ALPHAPLAY

By Masgames

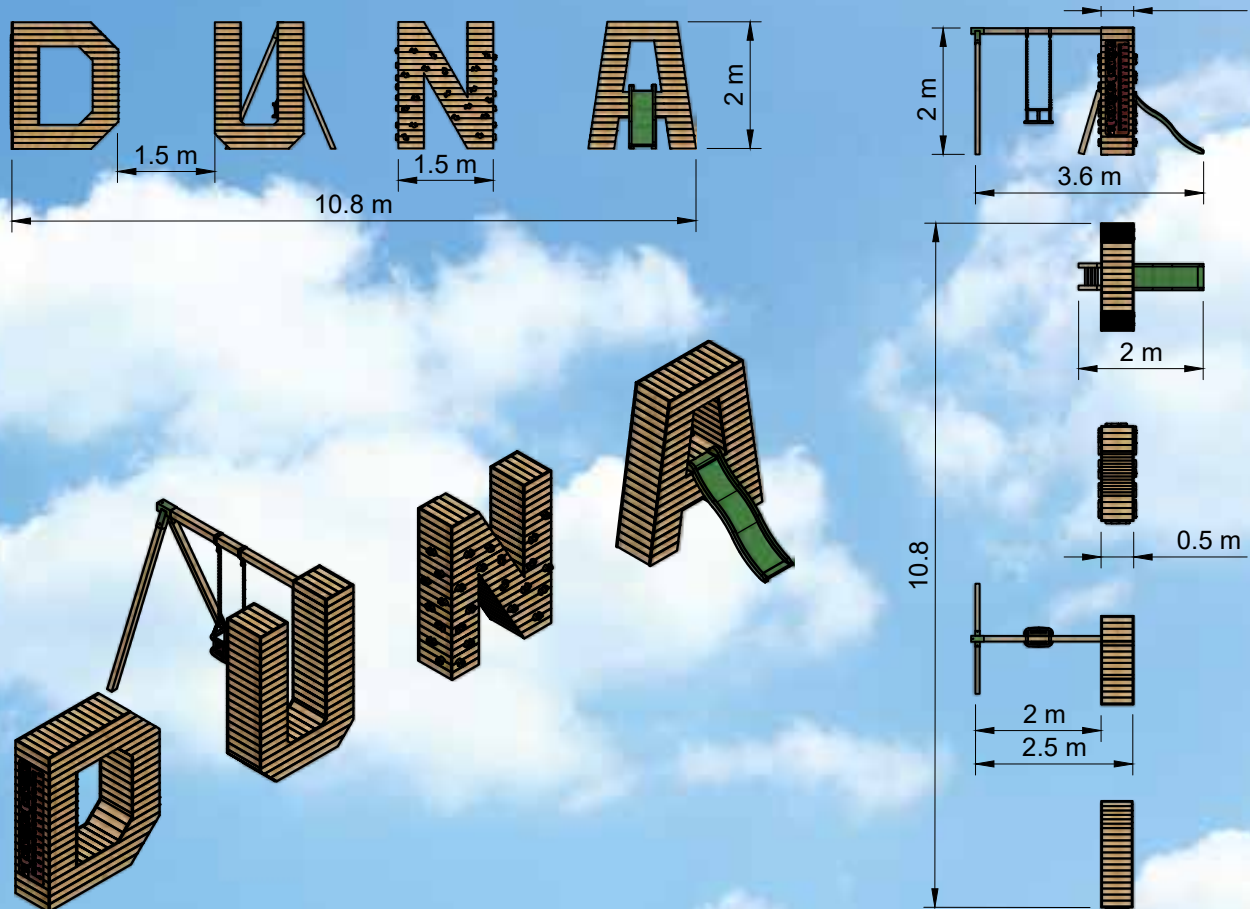

MASGAMES ALPHAPLAY giant wooden letters. They give meaning to public spaces by providing identity to parks, gardens or squares. In addition to their playful function, these letters convey powerful messages, whether highlighting the name of a town, company, organization or expressing universal values such as LOVE or PEACE. Their versatility allows for unlimited customization, including interactive games on the letters themselves such as climbing walls, slides, swings or play panels. Made from sustainable wood from Northern Europe treated in an autoclave level IV, these letters stand out for their quality and weather resistance.

Their charm lies in encouraging interaction and creativity, attracting visitors of all ages to pose next to them.

The photos taken become memories that are sure to be shared on social media, expanding the magic of the space. They comply with safety regulations for public use and add a touch of natural elegance to the environment.

Each letter, with an imposing height of 200 cm, is made to order and goes beyond being simple games:

they become the essence of outdoor spaces by beautifying, entertaining and communicating, building lasting memories and transcending expectations.

CUSTOM MADE PRODUCTS

At Masgames we are manufacturers of games and outdoor furniture, but we like to work on the design and implementation of specific projects if they have synergy with the products we manufacture.

Do you have a project in mind? Our team of engineers and designers are here to make it a reality!

Tell us what you want, how you imagine it and how much space you have available and we will study it to make you a proposal that will surprise you.

At Masgames we understand that making a custom project involves completing the entire process until you have it installed and ready to use. We will accompany you in the design, we will present you with one or several proposals to adapt to what you really want and, once we have defined it, we will manufacture it so that the result even exceeds your expectations.

In this section of our catalogue we present some of the custom projects we have created: a chicken coop, a rabbit hutch and a wooden children's playground for the interior area of a hotel.

Chicken coop

Rabbit hutch

Can you imagine spending a weekend with your family in a country house where the little ones in the house can play non-stop? Slides, swings, playhouses, adventure towers, going up, going down and spending the day playing, without screens, moving, getting tired and always enjoying the outdoors and nature.

Now add a space where rabbits and chickens can live freely in a space designed for them and protected. Children will come to look around, learn to respect animals and discover the cycle of life.

This was the proposal we launched for this project. An area reserved for these fun animals that, together with a good recreational proposal, offers the little ones the possibility of playing and learning at the same time

Drone circuit

Flying drones is not limited by age or skill. After some explanation, everyone can be able to pick up a controller and make a drone get off the ground and fly.

But there is a world between getting a drone off the ground and piloting it well, having the skill to take your drone wherever you want and flying it wherever you want.

When this moment of absolute control of your drone arrives, the best way to enjoy an exciting flight is flying it on a circuit specially designed for it.

Indoor Park for hotel

This hotel had a beautiful interior space to transform it into a wooden castle with various heights and slides.

From this idea came this spectacular play area with two slides one with a spiral tube slide and a complex wooden structure customdesigned especially for this corner.

The result? A spectacular play area that even the little ones won't want to leave.

What a vacation!
